

- I am not sure if you know the circumstances of the bill that you are trying to pass and how it will affect a lot of Michigan citizens. My name is Jason M. Bryant. I am a citizen of Michigan that has a Traumatic Brain Injury and the last seven years of my life have been difficult. Since I have had the brain injury the State of Michigan has actually given me support, therapy and counseling that has allowed me to even write this statement that you are reading today. With the \$50,000 cap my therapy and everything that I have received would not have been possible. IT WOULD NOT BE TO ANYONE'S BENEFIT TO ELIMINATE WHAT WORKS AND PASS THIS BILL!!!!!!
- Will \$50,000 help you or me in a catastrophic accident?

Jason Bryant
